III. Approval of Minutes

IV. Officer Reports

- a. President- Drive to Strive was the most successful attempt, and with the budget pass, this is great news! Another CCSG will be held in April, date TBA. Two presidential candidates: Greg- senator for one year and plans to fill every exec board position, and take over the role of president, recruiting new students, intern at career services. Although not in many clubs, the internship allows him to learn new methods to enlarge outcome at the events. Eric- running because Mike announced that he wouldn't be running. Second year with SGA and Blue and White president and active tour guide. Proud to go to PSWB not just PSU. Believes in getting to know everyone on campus. Population is a big factor, and I'm interested in enlarging the SGA population. Two students: ones that take what they have and run with it, or the students who sit back and let things just happen. We are students, we pay, so we should be made happy. VP: Mark- already on exec board and sees the struggles on campus, made him want to run for VP. Looking to make the campus a better place. Meg- how will you make students here happy? Greg- to work with what we have and to make others happy. Eric- sit down with them and break it down. They say the campus isn't doing enough, but what is it exactly that we aren't doing? Dash- one specific issue that you've seen and how to address it? Greg- safety is the biggest concern. We need a safety committee with a real leader. Eric- safety is a big thing, but my biggest concern is students being told they can't do something and doing it anyway. Getting students acquainted with the rules and to do it right the first time is a big priority of mine. Carmen- what's the plan for the person that doesn't win? Greg- Going to still sit on the senate and on the committee's. Eric- Will continue being blue and white president and still help the fitness club and four seasons. Dash- philosophy on delegating responsibility? Greg- opinionated, but when it comes to issues that matter as a whole. If I don't agree with it, I'll still take it on and do it. Eric- involvement goes around having each person feel like they have something to do. I would delegate things to each person on the exec board and senators.

Found there were no handicapped buttons on the front entrance to the building and inside has no handicapped buttons as well. Entrance by the parking lot, in order to open the door for the handicapped buttons to work you must swipe your card. Switches were turned off, security said their protocol is to turn off the switches at night and the morning crew turns them back on. Wanda- did you speak with Gary? Scott- I'm waiting for him to get back to me. Wanda- handicapped entrance to the building is not the entrance that the students take, but there are issues when you talk about accessibility. Report is incomplete until he can speak with Gary. Meg- once you get up the incline, the doors aren't handicapped accessible either. Eric- the arb is for athletic recreation, I know one person who is handicapped on campus and he only goes to the ARB for working out. Kahli- my roommate had knee surgery and used the gym for physical therapy.
