#### VIII. Old Business

Drew- Last week, the topic of security was brought to the table, and I'm unsure of when it will be resurfaced after it was tabled last week. Ty- We are waiting to get more information from CCSG this weekend to bring back other thoughts. Mike- There has been no campus leaders and advisors meeting as they said. We make NO decisions at CCSG, instead, we think of ideas to resolve the issues there, so we are all hoping to come back with solutions. It would be better to hold off until after the meeting, next week. Ty- it is important, but waiting to hear other thoughts from other campuses. Last semester we had idea of supreme court incase SGA can't resolve problem within constitutions- Alex- despite opinions from last year, CCSG last month showed other campuses do have supreme courts within SGA. Should check with CCSG to see how it's ran. Meg- problem with disgrace, not correct to expect students to go above peers and explain why their grades aren't the best. It goes against privacy, when our own parents can't even know grades without permission. We shouldn't have to explain to peers why our grades aren't the best. Ryan- Nick said it wasn't the issue of grades, but just issue in general. Not necessarily doing that, but showing how it isn't being followed. Grades remain confidential, table discussion until after CCSG for more information from other campuses. Meg- what is the deal with SAF? Michelle- no official word from Wanda, committee just got 100% assembled, should be next week. It would be this week, but Wanda is absent this week. Will be sending out emails next week.
