SFF- get new furniture in science center, and the front of the Murphy Center

Science center furniture should be updated.

Murphy Center is mostly used for incoming students so furniture should be updated

Prioritize projects first, and then decide. If we approved tech center we should be allowed to update the science center. Tutoring takes place in the science center. Social events aren't really held in the murphy center. So should we update it? Split the vote.

Are couches really the deciding vote of perspective students in the murphy center?

How difficult is to get administration to put in money for updates?

Academic spaces are considered classrooms

Neither- 2 Science- 37 Murphy- 0 Both- 5

Installing a climbing wall into gym area- different idea, well-trained rock climbers who could assist in teaching other students, constant supervision, maybe not in the gym but in another space, we have a lot of space available

Stop looking into it- 13 look into it- 23 a- 0

\*tables ccsg until next week. all in favor
